Introduction of Dongying City

DongYing City is biggest Petroleum Equipment Manufacturing Industrial Base in China and the second largest oil field, Shengli Oil Field, is located Great Dongying Area.

Dongying is the central city of Yellow River Delta (one of the three major deltas in China) and the Shandong petroleum equipment industrial are gathered here. The north of Dongying next to Jing Jin Tang economic belts and the south connects the economic zone of Shandong peninsula; it is the important channel connects to the northeast and central plains economic plate. The mother river of the Chinese nation, the Yellow River, enters the sea here. Shengli Oil Field, the second largest oil field in China, and China University of Petroleum, the biggest Petroleum University in China, are located in Dongying City.
